MUHAMMAD FARHAN AKMAL

Frontend Developer | Web Developer | UI/UX Designer
Jakarta, Indonesia | akmalfarhan959@gmail.com | 081229930539

PROFESSIONAL SUMMARY

Frontend Developer and UI/UX Designer with over 3 years of experience building responsive, user-centered web applications using React.js, JavaScript, HTML, and CSS. Experienced in government and enterprise projects, including customs systems for the Directorate General of Customs and Excise and planning and budgeting analytics platforms. Strong in translating business requirements into intuitive interfaces, integrating with backend APIs, ensuring cross-browser compatibility, and delivering high-quality features through Agile workflows using JIRA. Bachelor's degree in Communication Science from Universitas Negeri Yogyakarta (2021).

CORE SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, jQuery, React.js, Node.js, Golang

Design & Prototyping: UI/UX Design, Figma, Wireframing (Low-Fidelity & High-Fidelity), Design Systems, Responsive Design

Tools & Workflow: Visual Studio Code, Git, JIRA, Debugging, Cross-Browser Testing, Backend Integration, Agile / Scrum

Languages: Indonesian (Native), English (Proficient)

PROFESSIONAL EXPERIENCE

Frontend Developer

PT Mediatama Indo Teknologi in Directorate General of Customs and Excise - Ceisa 4.0 Development Project, Phase VI | January 2026 - December 2026

- Developed responsive web applications using React.js for the Ceisa 4.0 customs system, used for national customs and excise operations.
- Designed and implemented layouts, visual elements, and interactive components to create an engaging and responsive user experience.
- Ensured cross-browser compatibility and optimized interface performance across devices.
- Integrated frontend components with backend APIs and collaborated with backend developers to ensure data accuracy and system reliability.
- Performed routine maintenance, debugging, and UI improvements to enhance usability and stability.
- Managed tasks and tracked progress through JIRA in an Agile development workflow.

Web Developer

PT Codean Cipta Teknologi - Ceisa 4.0 Development for Ceisa Lab | May 2024 - December 2024

- Developed web-based applications for planning and budgeting consistency analysis using React.js.
- Designed and implemented responsive layouts, design systems, and visual elements for a clear and intuitive user experience.
- Ensured cross-browser compatibility and consistent performance across platforms.
- Integrated frontend interfaces with backend services and APIs.
- Conducted routine maintenance, debugging, and interface improvements to improve usability and performance.

UI/UX Designer

PT Tees Pratama Indonesia | January 2022 - May 2023

- Created UI designs aligned with brand guidelines and shared design agreements to meet user and business needs.
- Conducted user needs analysis and translated findings into user-centered application and web designs.
- Created low-fidelity wireframes representing user journeys and interactions in applications and websites.
- Designed and delivered complete application and web interfaces from wireframes to high-fidelity designs.

- Ensured development output matched approved designs and met usability standards.
